The checklist assesses openness to various work settings and populations through questions such as: - I am interested in working with children, adults, or seniors. - I enjoy working in dynamic and unpredictable environments. - I am willing to work in different locations, such as urban or rural areas. Many modern security tools operate in real time, monitoring downloads and alerting users to suspicious activity. Keeping antivirus software updated enhances effectiveness against emerging threats.

Safe handling of digital documents

In addition to secure downloading, safe handling practices further reduce risk. Avoid enabling macros or scripts in PDF files unless necessary and trusted. Be cautious with files that request excessive permissions or prompt unexpected actions. These precautions help maintain device integrity and user privacy.
