Christine Felstead, a renowned yoga instructor and holistic health advocate, has dedicated much of her career to tailoring yoga practices specifically for runners. Her approach combines classical yoga techniques with insights from athletic training, creating a comprehensive program that addresses the unique needs of runners. Whether you're a seasoned marathoner or a casual jogger, integrating Felstead's yoga methods can elevate your running performance and overall well-being. The Importance of Yoga for Runners Enhancing Flexibility and Range of Motion Running, especially over long distances or on hard surfaces, often leads to tight muscles and reduced mobility. Yoga helps stretch and lengthen muscles such as the hamstrings, quadriceps, calves, and hip

flexors. Improved flexibility can lead to a more efficient stride and decreased injury risk.

Strengthening Supporting Muscles Yoga isn't solely about stretching; it also builds strength in core muscles, hips, and legs. A strong core stabilizes the pelvis and spine, which is vital for maintaining proper running form and reducing strain on joints. **Improving Balance and Proprioception** Many yoga poses challenge balance and coordination. Enhanced proprioception helps runners become more aware of their body positioning, leading to better form and injury prevention. **Mental Focus and Breathing** Yoga emphasizes mindful breathing and mental clarity. For runners, this translates into better breath control during runs and increased mental resilience during races. **Injury Prevention and Recovery** Consistent yoga practice can help prevent common running injuries such as IT band syndrome, plantar fasciitis, and Achilles tendinitis.
